FINWORX

Minimize the manual intervention of financial operations with FinWorx. Automated reporting with near real-time access to data.

THE ENTERPRISEWORK WAY

We think differently, that is our unique differentiator. Yes, we do IT stuff but it is how we think that makes our solutions fit perfectly within your organisation. EWX has been around for over 15 years, being a Gold Microsoft Partner since inception. We take pride in the connections and solutions we build. We think outside the box and create sustainable solutions for your organisation.

FINWORX

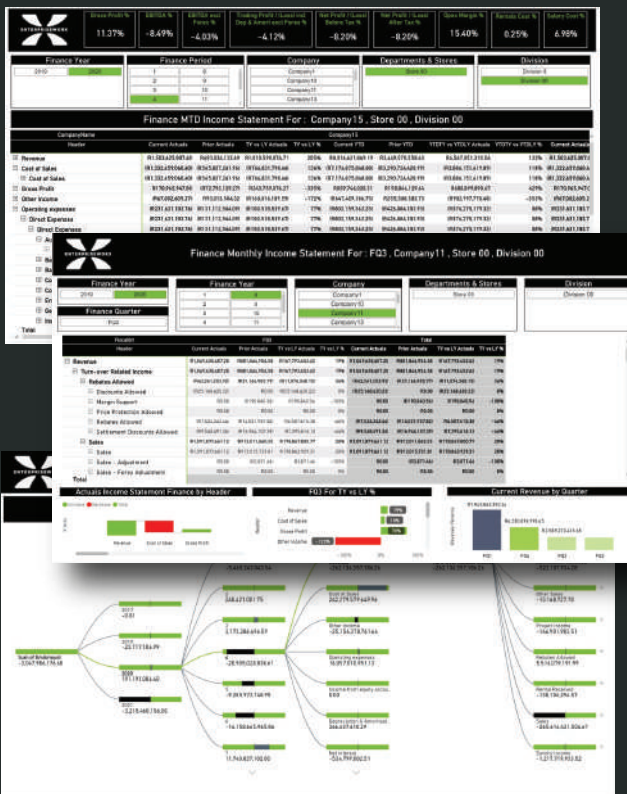

Thriving in the new digital age, automated finance reporting minimize the manual intervention of financial operations. Reducing the risk of manually exporting or creating reports.

With near real-time capabilities FinWorx users can access accurate data within seconds. Reducing manual intervention FinWorx provide users with the ability to focus on strategic business decision-making with accurate information.

Organisation can see an improvement in staff resource with reduction in manual tasks.

Gain insights into your income statement, balance sheets, and cash flow, with a detailed drill down into your finance data.

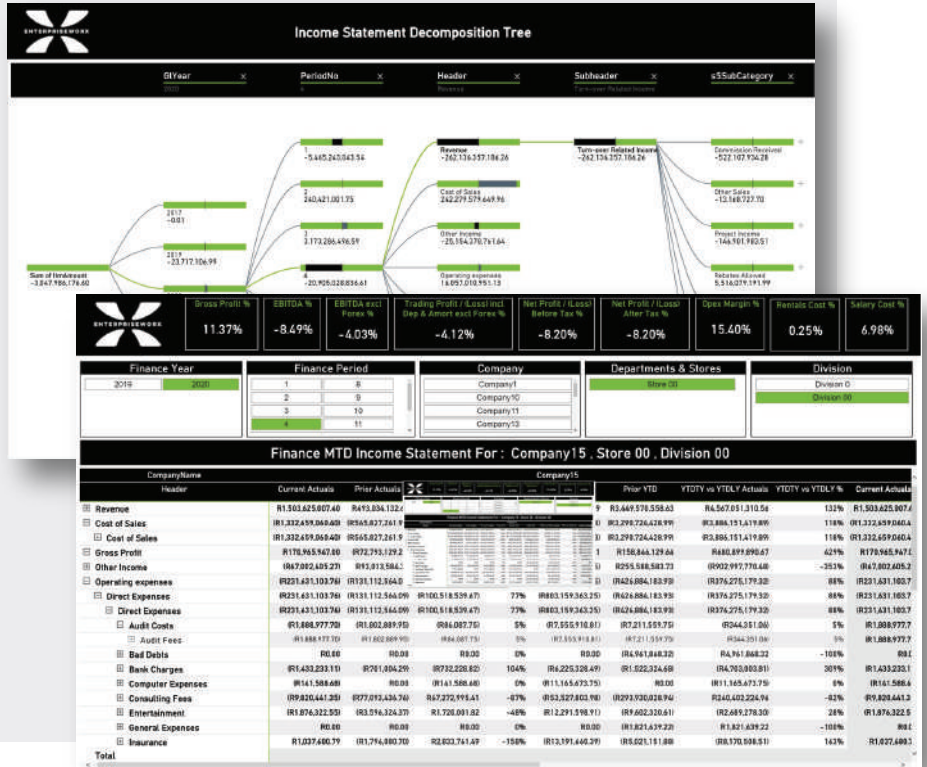

FinWorx is compatible with SYSPRO and ACCPAC.

INCOME STATEMENT

View how profitable your business was with detail reporting from Revenue, Cost of Sales, Gross Profit, Operating Expenses.

Using the Decomposition Tree, you can analyse your income statement from the GL Year to the Sundries Incomes with a click of a button.

BALANCE SHEET

Near real-time reporting with FinWorx allows you to access your balance sheet at any given point in time with nearly no human interaction. Just select your reporting metrics and FinWorx will provide the report on your assets, liabilities and shareholders' equity.

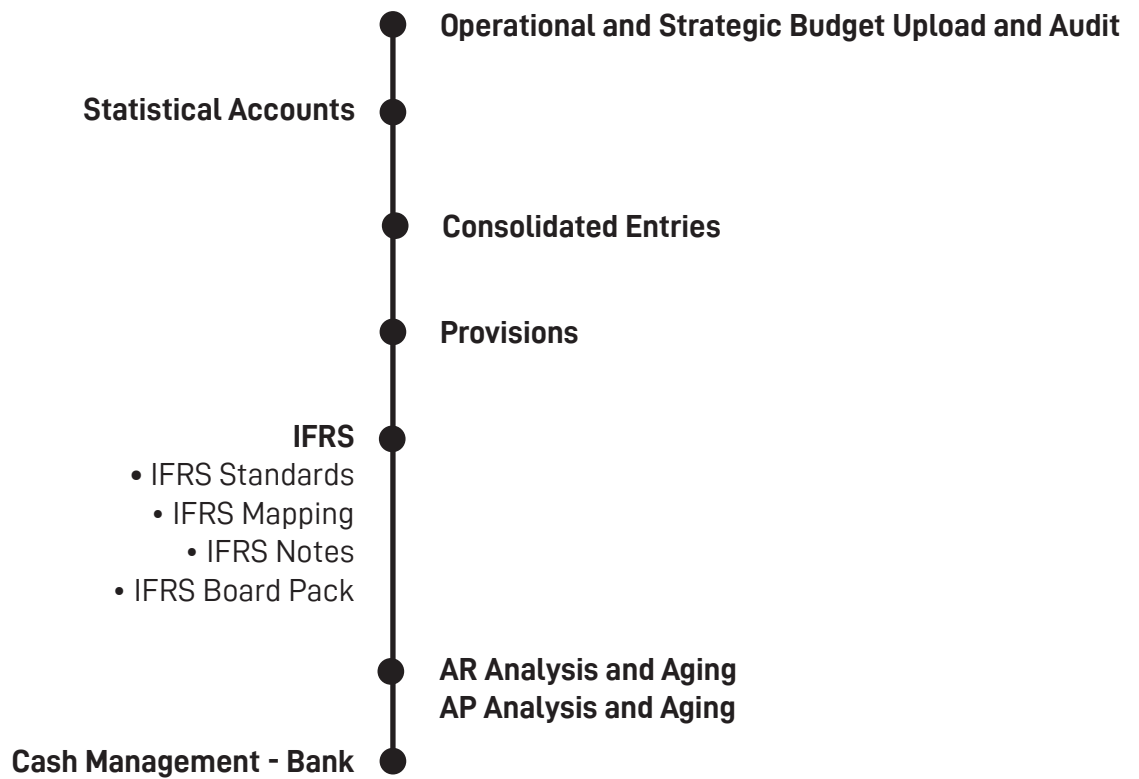

The Balance Sheet report will detail the Current Ratio, Acid Test Ratio, Cash Ratio, Net Working Capital, Debt Ratio, Equity Ratio, Solvency and more.

Become the future of Finance by digitizing your data and analytics.
